Be Warned

in time. Kidney disease may be prevented by purifying, renewing, and invigorating the blood with Ayer's Sarsaparilla. When, through debility, the action of the kidneys is perverted, disease may be a gradual loss of the model constituent, albumen, which is excreted in the urine, while worn out matter, which they should carry off from the blood, is allowed to remain. By the use of Ayer's Sarsaparilla, the kidneys are restored to proper action, and albumin, or

Bright's Disease

is prevented. Ayer's Sarsaparilla also prevents inflammation of the kidneys, and other disorders of these organs. Mrs. Jas. W. Weld, Forest Hill st., Jamaica Plain, Mass., writes: "I have had a complication of diseases, but my greatest trouble has been with my kidneys. Four bottles of Ayer's Sarsaparilla made me feel like a new person, as well as strong as ever." Mr. M. C. Bowles, 40 Summer st., Boston, Mass., had been troubled for years with Kidney Complaint. By the use of Ayer's Sarsaparilla, he is not only

Prevented

the disease from assuming a fatal form, but was restored to perfect health. John McLellan, corn Bridge and Third st., Lowell, Mass., writes: "For several years I suffered from Dyspepsia and Kidney Complaint, the latter being so severe at times that I could scarcely attend to my work. My appetite was poor, and I was much emaciated; but by using

AYER'S

Sarsaparilla

my appetite and digestion improved, and my health has been perfectly restored."

CONGRESSIONAL NEWS.

THE FISHERY QUESTION INTERESTED IN THE SENATE.

Fixing the Date on which Class Mail Matter—The House Considering the Tariff on Wool—Railroad Through Indian Territory—Nominations Rejected.

WASHINGTON, June 17.—Mr. Edmunds moved an executive session almost immediately after the opening of the senate, but yielded to a request for the transaction of morning business.

A memorial of the Massachusetts legislature was presented by Mr. Dawes, which

it is recited that the "general court" of Massachusetts, in its session of 1836, and recent interferences of the government of Canada with the rights of American fishermen, and urges congress to secure immediate relief for this class of citizens.

Mr. Hoar said the power conduct of the Dominion government had caused a feeling of uneasiness among the Massachusetts fishermen, but he was sure, however, that the committee on foreign relations was fully alive and alert respecting the necessity for preserving the honor and dignity of the nation, and the rights and interests of its citizens.

Mr. Hoar wished to add that in his judgment it would be necessary to enlarge somewhat what the scope of the legislation already adopted, and to put it into the power of the president to prohibit the importation of fish sent to the United States in foreign vessels, to regulate, not merely by denying like commercial privilege, but authorizing the president in his discretion to deny all commercial privileges in United States ports to vessels of any power so denying or to vessels of any nationality, employ or dependency of such power.

The senate then adjourned at 12:30 p. m., on motion of Mr. Edmunds went into executive session.

The doors were reopened at 5:15, and on motion of Mr. Edmunds the house proceeded to take up the bill for providing for the payment of the premium, timber, culture and desert land acts.

Mr. Wilson obtained permission

to introduce a bill to regularize

the senate bill, and the house voted to

move on four class mail matter to two

cents an ounce, but gave way for the consideration of the invalid pension appropriation bill, which was reported by Mr. Legan and at once passed.

The bill was introduced by Mr. Hoar, called for the resubmission of the passage of the bill.

He believed that the exclusively which was being created in the army was un-American, and he would vote against all appropriations for the West Point

Academy.

He gave a pleasant greeting for all, too, in a friendly, cordial manner.

While engaged in business his manner

is nervous and his movements quick.

In speaking, he hastily strides the floor, while every word seems to be discharged with enthusiasm.

Only a few weeks ago the New York Herald suggested him for the first place on the Democratic ticket, with Governor Hill, of New York, second.

THE WESTWINGED RACE.

Discussing the Contest To Be Tried Over Again.

NEW YORK, June 17.—The topic to-day in all circles is the result of yesterday's trials.

There is no question that the Puritans

were the favorite, and those persons who believe in the ability of the Puritans to outlast their opponents expressed even greater confidence in her ability to win the coming races.

The crew of the Puritan say that yesterday was not a final issue at all, and they are undoubtedly of the belief that so far as a permit to start away from the Atlantic and

Priscilla if a breeze prevails to-morrow, when the New York Yacht Club regatta takes place, and during the regatta of the Seawanhaka Corinthian club on Saturday, the Puritan will be the first to cross the drydock at the foot of Market street in New York.

Capt. Stone examined the boat when she was raised and found belo the water-line foul and rough. The paint had cracked off in places and the bottom was in a condition of the worst.

Today a dozen men were

put at work on her, rubbing her hull smooth with sand paper.

Fourteen inches were cut away from the nose of the bowsprit to ease the tension on her head stay. She will be floated to-night and will be ready to start to-morrow.

She will be the first to start to-morrow.
